

# Emergenza COVID-19

## Precautionary information when accessing a plant

- 1) All appointments and scheduled meetings with suppliers and customers at the Company's offices are cancelled; any exceptions that cannot be rescheduled - due, for example, to compliance requests from government agencies - can only be authorised by the HSC (the Health and Safety Committee), which will simultaneously provide ad hoc rules of conduct for the specific case;
- 2) Come to work in your own vehicle, one person per car. If this is not possible, staff are invited to keep the safe distance of at least 1 metre inside the vehicle by having one person in the driver's seat and one in the rear seats;
- 3) Take your temperature before going to work: if you have a fever (over 37.5°C) or other flu-like symptoms, it is mandatory that you stay at home and call your family doctor and the Health Authority;
- 4) You may not enter or remain on the company's premises if a hazardous condition exists or arises after you have entered (flu-like symptoms, a temperature, coming from an at-risk area or contact with people who have tested positive for the virus in the previous 14 days) for which the Authority's provisions require that you inform your family doctor and the Health Authority and that you stay at home;
- 5) Respect all the provisions issued by the Authorities and your employer when entering the company's premises (in particular, maintain the safe distance, observe the rules regarding hand hygiene and follow hygiene procedures correctly);
- 6) Promptly and responsibly inform your employer if you experience any flu-like symptoms during the working day, taking care to keep an adequate distance from any other people present
