Minerbe, January 2023

Object: ELV Declaration (End of Life Vehicle)

According to the Directive 2000/53/CE "concerning the End of Life vehicles", adopted in Italy by the Legislative Decree n° 209 dated 24/06/2003 and subsequent amendments and additions, Zanardi Fonderie S.p.A. declares that the objects of its supplies are:

Cast iron (grey castings, spheroidal cast iron, etc) in accordance with the following quality standards:

- UNI EN 1561:2011 – Grey cast iron
- UNI EN 1563:2018 – Spheroidal cast iron
- UNI EN 1564:2011 – Austempered ductile cast iron (bainitic)
- Other equivalent issued by other standard bodies or customers

Such materials do not contain the hazardous substances listed in art. 4, subsection 2, letter a) of such Directive (lead, mercury, cadmium, chromium VI).

Any traces of these hazardous elements (lead, mercury, cadmium) in the chemical composition of the cast iron is not due to *a deliberate introduction* (the deliberate use in the formulation of the composition of the material) by the foundry during its production cycle.
